DDC Planning Department Meeting 23rd September 2025

Present

Sarah Platts, Claire Dethier, Philippa Seager and Keith Pilcher.

DDC Planning Department encourage pre-planning application meetings to help a satisfactory outcome.

Generally, determination of planning applications for extensions, additions or a single dwelling is around 8 weeks. Larger development applications will normally be around 13 weeks.

However, the time taken will often be extended because specialist surveys may be required for a particular location, or a developer has decided they are in no hurry to comply with conditions set out by the Planning Department.

Where a developer has expressed an interest or submitted plans for a site in the DDC Local Plan but the site has stalled, the Planning Department will contact the developer annually to assess the situation, although they don't always get a response.

The Petrol Filling Station site on New Dover Road being one such site.

The following sites were discussed: -

164 Capel Street

The hold up with this planning application is due to legal requirements being resolved in relation to the re-routing of a PRoW footpath. The legal requirements take time to process.

The Lighthouse Inn

The Planning Department were surprised by the decision of the developer to take non-determination action as this is unusual. However, if the Planning Department are asking for further information/surveys etc., the developer may believe that by going to the Government Inspector they may get a faster positive outcome.

Longships, Cauldham Lane

To be determined by the Planning Committee on the 25th September.

The Planning Department will scrutinise the Construction Site Management Plan to ensure start times are consistent throughout the document.

107 - 127 Capel Street

The Planning Department were unaware of the current position with this site but there are still outstanding conditions to be met by the developer.

3 Alexandra Road

Still within the 8 week determination time.

Capel Court Park

Still within the 8 week determination time.

90 Units to the rear of Capel Street

The Planning Department were unaware of the current position of this site but did make the comment that it was not unusual for Quinn Estates to sell on a plot of land to another developer.

Some Parish Councils contact the Planning Department monthly to enquire about the current position of planning applications within their Parish.
